## **Course Information**

**Course Objectives:** This course provides an advanced overview of local government in Canada. It surveys the structures, functions, and financing of local governments, and examines their relations with federal and provincial governments.

**Course Organization:** The course will consist of a combination of lectures, class discussions, and student presentations.

### **Readings and Materials**

Required textbooks (both available in the UWO bookstore):

Andrew Sancton, *Canadian Local Government: An Urban Perspective*, 2nd edition (Toronto: Oxford University Press, 2015)

Zachary Spicer, *The Boundary Bargain: Growth, Development, and the Future of City-County Separation* (Montreal and Kingston: McGill-Queen's University Press, 2016)

All other assigned readings will be available electronically, either through the course's OWL site or on-line. Assigned reading should be done **before** the class in which it is to be discussed.

### **Requirements:**

1. Two Short Reading Responses. Every student is required to submit a short reaction paper to the assigned readings for two classes (beginning Sept 21). These papers should be **no more than** two pages single-spaced and should speak to the main themes and issues raised in the readings. You have some freedom in how you want to approach these responses, but they are **NOT** intended to be summaries. You are encouraged to reflect on any ideas or approaches covered in the readings that you agree or disagree with, to develop an argument that ties some or all of the readings together, and to incorporate your own personal experiences. You will be asked to

present one of these responses to the class (see *Class Participation*). You should be prepared to help lead class discussions for each of the sessions that you prepare a response for, and especially during the class in which you present. Responses are to be submitted at the start of the class which is covering the readings that you have responded to. *Late Papers will not be accepted*.

- 2. Class Participation. Two items make up the class participation grade:
- a. Attendance and Participation. You must attend all classes, keep up with the readings, and participate during discussions. If you are unable to attend a particular class, you should advise the instructor in advance.
- b. Reading Response Presentation. You will be required to present one of your reading responses to the class. The presentation schedule will be determined during the first class. These presentations should be **approximately 5 minutes in length**. Unless agreed to in advance by the instructor, no audiovisual equipment will be used for these presentations.
- 3. *Final Essay*. **In consultation with the instructor**, students should choose an essay topic related to any of the subjects covered above. The essay should be between 2,500 and 3,000 words in length and must be submitted by **December 7 at the latest**. Papers submitted after this date will be penalized two percentage points for each day (including weekends) that the paper is late.

#### **Evaluation:**

1. Two Short Reading Responses 10% each = 20%

2. Participation3. Final Essay50%
